✧ New Look of Suara Bukit ✧

This August, we are launching a new look of Suara Bukit. It created with Pro-software to made it look nicer and better.

Together with the launch of new Suara Bukit, we would like to announce the launch of JCI PODCAST created by JCI Bukit Mertajam. Suara Bukit will have real "suara" online.

What is Podcast? A lot of people is asking this question and they are interested to know more about it. JCIBM take the very first step to launch the first JCI podcasting.

Podcasting is a new technology allowing a listener to "subscribe" to audio shows on the Internet that he or she wishes to receive. Just like radio, the shows are received free of charge.

The magic of podcasting is that the shows are automatically retrieved. Systems can

JCI PODCAST

easily be configured to automatically transfer the podcasts to the mp3 player of your choice, burn them to CD or play them directly on your computer, phone or mobile device. Podcasting puts the listener in charge of deciding when, where and how they are going to listen to the show. Podcasting is the future of mobile audio content delivery.

To subscribe it, please download a program called iTunes at www.apple.com and once you installed it, follow below instruction :

- 1) launch the iTunes
- 2) click on Advanced
- 3) select Subscribe to podcasts
- 4) then key-in <http://feeds.feedburner.com/jcibm>
- 5) then you will see JCI Bukit Mertajam listed in the iTunes player.
- 6) double click it and you are on the way to listen JCI Podcast.
